

Coconut Butter

Cocos nucifera

INCI: Cocos Nucifera (Coconut) oil (and) Butyrospermum parkii Butter (and) Oryza Sativa Bran Wax (and) Stearic Acid (and) Palmitic Acid (and) Olive Oil Polyglyceryl-3 Ester

Coconut BUTTER is obtained from Coconut oil through our innovative process, preserving all the properties from the oil. Our method does not use any hydrogenation process. Coconut oil is valued for its nutritive, cosmetic and medicinal properties. It's an effective moisturizer on all types of skin, including dry skin. Therefore, it is a safe solution for preventing dryness and flaking of skin. It also delays the appearance of wrinkles and sagging of skin, which normally accompany aging.

In formulations, COCONUT BUTTER helps in:

- improving the spreading and moisturizing effects in finished products
- building up body and structure in a formulation, stabilizing emulsions and adjusting viscosity.

Technical Information

	Characteristics	Method
Appearance (25°C)	Solid Butter	Visual
Color	Pale White	Visual

Packaging and Storage

Packaging: White plastic pails, 25 kg net.

Storage: Store in cool conditions (below 25°C) away from light and humidity in unopened containers.

Shelf Life: 12 months in original unopened packaging.

Safety: Refer to MSDS. Not considered hazardous.
