

Olive Butter

Olea Europea

**INCI : Olea Europea (Olive) Oil (and) Butyrospermum parkii Butter
(and) Oryza Sativa Bran Wax (and) Stearic Acid (and) Palmitic Acid
(and) Olive Oil Polyglyceryl-3 Ester**

Olive Oil has been known for its benefits since ancient times, and recent studies have emphasized its unique properties. In modern cosmetics, products derived from olive oil are of wide interest since they combine the olive oil properties with wide ranging new formulation opportunities.

OLIVE BUTTER is obtained from Olive Oil through our innovative process, preserving the essential properties the Olive Oil. Our process does not include any hydrogenation step.

Olive Butter can play a positive role in many cosmetic formulations. It spreads easily on the skin and has excellent penetrating and moisturizing characteristics which help repairing and softening dry skins.

In formulations, OLIVE BUTTER helps in:

- improving the spreading and moisturizing effects in finished products
- building up body and structure in a formulation, stabilizing emulsions and adjusting viscosity.

Technical Information

	Characteristics	Method
Appearance (20°C)	Soft, ivory/greenish solid	Visual
Odor	Low, typical	Olfactory

Properties and Cosmetic Applications

OLIVE BUTTER is recommended for:

- skin care: creams, milks, face masks 1-5%
