

Pumpkin Butter

Persea Gratissima

**INCI : Cucurbita pepo seed Oil (and) Butyrospermum parkii Butter
(and) Oryza Sativa Bran Wax (and) Stearic Acid (and) Palmitic Acid
(and) Olive Oil Polyglyceryl-3 Ester**

PUMPKIN SEED BUTTER is obtained from pumpkin seed oil through our innovative process, fully preserving the essential properties of Almond Oil. Our process does not include any hydrogenation step.

PUMPKIN SEED BUTTER can play a positive role in many cosmetic formulations. It spreads easily on the skin and has excellent penetrating and moisturizing characteristics, which help repairing and softening dry skins.

In formulations, PUMPKIN SEED BUTTER helps in:

- improving the spreading and moisturizing effects in finished products
- building up body and structure in a formulation, stabilizing emulsions and adjusting viscosity.

Technical Information

	Specification	Method
Appearance (20°C)	Soft, off-white to ivory solid	Visual
Odor	Low, typical	Olfactory

Properties and Cosmetic Applications

PUMPKIN SEED BUTTER is recommended for:

- skin care: creams, milks, face masks 1-5%
